Dear Mr. Klees:

Please accept this letter as an indication of the Town Of Cochrane's official support of Bill 41.

We also completely support the City of Oakville's motion, supporting Bill 41. In the same context, we want to thank you [Frank Klees] for championing such a progressive Bill that recognizes a municipality's need to be in control of their quality of life, along with their destiny going forward. Municipalities are the front line service provider to the people of the province and the best suited to represent their immediate needs. Communities grow in many different ways and Bill 41 provides the right focus on doing this most effectively.

Thanks again for your dedication to making Ontario a better place to live and feel free to call upon the Town of Cochrane if needed in continuing the pursuit of this important Bill.

Yours truly,

**THE CORPORATION OF THE TOWN OF COCHRANE**
