Petition to the Parliament of Ontario

Whereas Tyler Mulcahy and his friends lost their lives in a tragic accident that could have been avoided;

Whereas young people must learn zero tolerance for drinking and driving to protect themselves from enduring tragedy that will severely impact them, their families and their friends;

Whereas toward this end, young people need to acquire safe and responsible driving habits from as early an age as possible;

Whereas improved provincial driving laws can effectively contribute to the process of enhanced driver training and responsible habits among youth in this respect:

Therefore, we, the undersigned, petition the Parliament of Ontario to call on the Ontario Ministry of Transportation to enact laws to revoke the license of drivers 21 years of age and younger with alcohol in their bloodstream and to also revoke their license for speeding - for a period of from three months to one year based upon the determined amount of alcohol or the level of speed involved:
